The Kitty Degree Humanitarian Award is given by the Ad Club of Northeast Louisiana to an individual who represents through their service and community contributions to be an asset to the Northeast Louisiana area. The award is only presented when the judging panel believes the person is a deserving candidate, not just because someone has been nominated.

Everyone from this area knows of the many contributions Ms. Kitty Degree made to our community and thus was the first recipient of this award in 2006. The award is given to a person who is intuitive, shows compassion, is a coalition builder who is resilient and shows a responsiveness to make the community a better place for all. This person should be approachable, be principled, determined, and cooperative. A problem-solver who is giving, honest, has a vision and has integrity.
